

**Chuck Pfeffer**  
**Director of Product Management - 3D Imaging**  
**FARO Technologies, Inc.**

Chuck has been working in the Metrology field for the past 15 years. As Product Manager for a global measurement company, Chuck has had the opportunity to get a first hand look at many of the biggest metrology challenges in the world today. It has also enabled him to build relationships with many of the key individuals in the metrology community from all over the world.

Chuck has served on the Executive Committee of the CMSC for the past three years, handling workshops, vendor presentations, tours and security.

Chuck has a Bachelor of Science degree in Mathematics from Penn State University and a Bachelor of Science degree in Mechanical Engineering from Drexel University.
